

Empower Students to Learn Math Facts at Home

No class time. No cost. No paperwork. No prep.

Send home the math facts check-up for parents.

- ☆ A simple, yet powerful way to raise awareness, and get parents involved.
- ☆ The free app helps children learn math facts and demonstrate progress.
- ☆ Parents watch their children answer facts once a week, for three minutes.

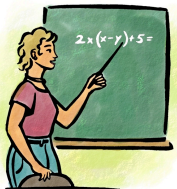

The app helps children practice towards their goals.

- ☆ In Practice Mode, children get extra reps with facts they miss.
- ☆ When children have mastered a set of facts, they use the app to show their parents.

When parents observe, children practice more, and with more effort.

- ☆ Parents follow their children's progress. They provide support and encouragement.
- ☆ Recognition for practicing and making progress empowers children to do more.

Pay it Forward and Back

Share your experience with other teachers. They will appreciate having a way to encourage students to practice at home. These may be your future students. If they start now, they will know their facts when they first enter your classroom.

Reasons to begin with the list *Mult Comprehensive*.

Give students a simple, attainable, goal. After they have met this goal, you can easily create a new one. You name the facts. Students enter the facts into their app. They have confidence, study skills and a home practice routine.

Get the free app and more at studysmart.com

Many children have difficulty with math because they don't know basic facts.

An easy way to find out if there is a problem, and a simple solution.

Think of it like going to the dentist. If you have no cavities, then no problem.

A small cavity is easy to fix, but if you don't take care of it, it will get much worse.

Take three minutes to find out if there is reason to be concerned.

A Three-Minute Assessment.

Get the *Show-You-Know Math Facts* app free at studysmart.com.

Choose the list, *Mult Comprehensive*. Select these options.

Watch your child answer the facts.

If your child gets 100%, that's like having no cavities.

If they miss some, it's important for them to learn those facts.

The app is an ideal way for children to practice and show you their progress.

Time to Answer: 3*

Practice Mode: Off

*This prevents children from counting.

A simple path to learning math facts.

Children practice on their own for five minutes a day.

At the end of the week, children answer the facts while you watch.

It only takes three minutes, but it has a big impact.

When your children know you will be watching, they practice more, and with more effort.

Your recognition, when they make progress, motivates them to continue to strive.

Children record the results on their Progress Chart. You sign it.
